

## Fact: Deficiencies are reported<sup>1</sup> when bariatric surgery patients utilize standard supplements.

Products designed to meet the conditional nutrient needs of a Bariatric Surgery Patient are BEST.

**Science Based.** We research and design products to meet the specific needs of weight loss surgery patients and improve outcomes.

**Patient Focused.** We study the patient populations and create various forms and flavors to maximize adherence.

**Quality Made.** We manufacture in pharmaceutical grade facilities and are GMP certified. Each product delivers 100% of labeled ingredients.

Bariatric Advantage Multivitamins deliver comprehensive nutritional support that works.\*

### How?

#### The science

##### Designed to improve outcomes

- Procedure specific
- High potency
- Multi Formula includes important vitamins, minerals, nutrients and more
  - Critical trace elements zinc, selenium, copper, chromium, vanadium and more
  - Accessory B Vitamins: inositol and choline
  - Most absorbable forms: natural E, D3 vs D2, citrate forms
- Minimal excipients in our products and exclude ingredients such as parabens, talc, carrageenan, BHT, and hydrogenated vegetable oil that may inhibit absorption
- No lactose, gluten, dairy<sup>2</sup>, egg, vegetable oils, and generally sugar free

#### The patients

##### Designed to maximize adherence

- Variety of form and flavor options enhance adherence and commitment
  - Three different forms reduce mouth fatigue
    - Soluble crystals
    - Chewable wafers
    - Capsules (dissolve without gastric acid)
  - Various flavors reduce taste fatigue

<sup>1</sup> The American Journal of Clinical Nutrition report, May 1, 2008, Vol 87, Number 5

<sup>2</sup> Chocolate Mint ADEK has very low amount of dairy

\*These statements have not been evaluated by the FDA.  
This product is not intended to diagnose, treat, cure, or prevent any disease.

*Full line of forms and formulations to meet lifestyle and nutritional needs of patients...and medical staff directives.*
